About Us

The Centre for Evidence-informed Decision-making (CEIDeM) is based at the Department of Health Information, Prasanna School of Public Health, MAHE, Manipal. The centre aims to meet the public health evidence needs of the South Asian region. Presently, we have grown into an international network with global collaborations, including many universities, public health organizations, and NGOs.

Overview

This scoping review certificate course will provide a theoretical introduction and practical sessions on developing a search strategy and designing a scoping review protocol.

This course includes student-centered classroom sessions by experts in the field. Participants will learn to choose the right review question for their project work and improve their skills in conducting the scoping review based on their topic of interest.

Certificates will be provided upon completion of the course. Participants are requested to bring their laptops.
