

Centre for Evidence - informed Decision-making
Cochrane Affiliate Centre - MAHE (Cochrane India Network)
Prasanna School of Public Health (PSPH)
Manipal Academy of Higher Education (MAHE), Manipal
Organizes workshop in collaboration with
The George Institute for Global Health on
“Introduction to Evidence and Gap Map”

February
27 - 28, 2025

Resource Person:

Dr. Prachi Pundir

Research Fellow

The George Institute for Global Health
India

In her previous roles, she worked in maternal and child health programs, funded by USAID and BMGF, at the district and state level in India, and in evidence synthesis projects funded by the DFID-UK, Inclen trust International, UNICEF- Innocenti, and SPARC, as part of diverse and multidisciplinary teams. With George Institute, she led an Evidence and Gap Map funded by the World Health Organization in 2022-23 and is currently working with The Resilience Collaborative project.

About Us

The Centre for Evidence-informed Decision-making is based at Prasanna School of Public Health, MAHE, Manipal. The Centre aims to meet the public health evidence needs across the globe. Presently we have grown into an international network with global collaborations, including many universities, public health organizations, and NGOs.

Workshop Overview

This two-day workshop introduces participants to the process of conducting Evidence and Gap Map (EGM). Participants will learn how to identify gaps in existing research using EGM, and the steps to conduct an EGM. Through a combination of presentations and hands-on activities, participants will gain practical skills in mapping evidence gaps and developing protocols to guide future research and policy decisions.

Who can attend ?

This workshop is ideal for Faculties, researchers, within MAHE institutions looking to enhance their evidence-based decision-making skills.

Learning Outcomes

By the end of the workshop, participants will be able to understand the purpose and components of EGMs, develop clear and systematic protocol for evidence synthesis, analyze and prioritize evidence gaps based on policy and research needs and apply best practices for creating and visualizing EGMs in research projects.

No registration fee!!

Number of participants: **20** (selection based on EoI)

Venue: **Medical Education Classroom,**

Second floor, Library building, MAHE

Timings: **9:00am to 5:00pm**

Registration link: <https://forms.office.com/r/5Z517WXjCx>

Last date to register: **22.02.2025**
